

In mid-2014, several members of our group worked through the process necessary to form a not for profit corporation with 501(c)(3) tax status called Friends Fighting Cancer. This process was undertaken to establish the best framework and platform for us to continue our efforts to support local cancer patients and their families.

HISTORY

In the early 2000's, a group of concerned local citizens formed an organization called Friends of the Cancer Center, to support cancer research, cancer patients, and patients' friends and families. The group's work benefited area residents, and as the needs of the community grew, the need for additional resources and support did as well. Friends Fighting Cancer has been established to continue this important work with the same spirit of services as the forerunner organization.

MISSION STATEMENT

The Friends Fighting Cancer is committed to giving hope and celebrating life by treating cancer patients and their families with compassion and providing them with spiritual, emotional, financial, and educational support.

PURPOSE

Cancer is an insidious disease that severely impacts the lives of patients, their family members and friends. Friends Fighting Cancer is a patient advocacy volunteer group whose members are driven by the shared purpose of being advocates for cancer patients who have been or are undergoing chemotherapy or other treatment for cancer.
